

Carlos Antonio Cardona Candelas

Data Engineer

carlos22ant@gmail.com · +52 493-103-5265 · linkedin.com/in/c-cardona-c · Monterrey, MX · Open to Remote

PROFESSIONAL SUMMARY

Data Engineer with 1.5+ years of experience building and maintaining data pipelines, ETL workflows, and data layer architectures on Google Cloud Platform. Proven ability to deliver measurable business impact — including \$100K+ in annualized cost savings through process automation. Experienced working in English with cross-functional teams based in the United States. Seeking a remote-first Data Engineer role.

TECHNICAL SKILLS

Cloud & Warehouse	Google Cloud Platform (GCP), BigQuery, Cloud Storage
Orchestration & Pipelines	Apache Airflow, n8n, ETL/ELT pipelines
Languages & Data	SQL, Python (Pandas, scripting, automation), YAML

Also worked with: Tableau, Power BI, Data Modeling, Medallion Architecture (Bronze / Silver / Gold), SFTP automation

WORK EXPERIENCE

Data Engineer · Uber Freight · Monterrey, NL (Hybrid) · Nov 2024 – Present

- Delivered \$100K+ in annualized cost savings by engineering Python-based automation pipelines that replaced manual data processing workflows.
- Leading the design and implementation of Silver and Gold data layers in a medallion architecture on BigQuery, consolidating 55 Bronze tables into a streamlined set of no more than 10 Gold tables aligned to business needs.
- Manage and maintain Apache Airflow DAGs supporting daily ETL operations across logistics data domains.
- Collaborate daily in English with cross-functional stakeholders in the United States, translating business requirements into data solutions.
- Apply YAML-based configuration and SQL transformations to enforce data quality and consistency across layers.

Data Analyst · Entrada Group de México · Fresnillo, Zac · Jan 2021 – Feb 2024

- Identified and quantified tax-saving opportunities worth over \$50K for clients through analysis of export data and trade treaty conditions.
- Reduced data processing time by 60% by building Excel macro automation and Power Automate workflows.
- Extracted, cleaned, transformed, and modeled foreign trade datasets using Excel, SQL, and Python.
- Delivered executive-level reporting through Power BI dashboards presented to senior leadership.

Software Project Lead · Concretos Lanzados Los Mochis · Fresnillo, Zac · Feb 2020 – Sep 2020

- Led development of an internal HRMS (Human Resource Management System) using JavaScript, Laravel, Git, and SQL.
- Managed communication between the technical team and company management; trained end users for adoption.
